Glossary

Short	Name	Description
ACI	Application Centric Infrastructure	Packet filter; responsible for access control of services
ADS	Active Directory Services	Directory service from Microsoft, used, among other things, for the logon of users to the PC network system
APIC	Application Policy Infrastructure Controller	Controller of the ACI
APN		
CCO	Collaboration Cloud Office	Office Package of ONLYOFFICE within the Collaboration Cloud
CCS	Collaboration Cloud Storage	Cloud-based storage of files with Nextcloud
DMS	Document Management System	
DNS	Domain Name System	System for resolving computer names
DNA	Digital Network Architecture	Global Network Management System; synonymous with new network and user authentication instead of client authentication
EPG	Endpoint Group	The access groups used by the ACI
SGT	Security Group Tag	Software Tag (Hex number) in the IP packet to control accesses in the network. Is translated to an EPG
IPAM	IP Address Management	Used as DNS and DHCP (in our case Infoblox)
ISE	Identity Services Engine	RADIUS server in the new network environment
PC-VS	PC network system	File, print and plot services in connection with a software provision
ZCM	ZENworks Configuration Management	PC image and software distribution software
ZENworks	Zero Effort Networks	meaningless network management
POS	HIS-GX Examination Operations System (HIS-POSGX)	HIS software of the GX generation for examination administration
SOS	HIS-GX Student Operations System (HIS-SOSGX)	HIS Software of the GX Generation for Student Administration
QIS	HISQIS, QISPOS	1st generation of web-based HIS examination administration software
APP	HISinOne Module APP	Current generation of HIS software for application and allocation of study places
STU	HISinOne Modul STU	Current Generation of HIS Software for Student Management
EXA	HISinOne Module EXA	Current Generation of HIS Software for Examination and Event Management
ALU	HISinOne Module ALU	Current Generation of HIS Software for Alumni, Career Service, Fundraising
PSV	HISinOne module PSV	Personalised Services and Directories provides the current generation of HIS software with cross-module basic services
SYS	HISinOne Module SYS	Designation of the infrastructure in the context of HISinOne

Short	Name	Description
BIA	HISinOne Module BIA	Business Intelligence Application, application for cross-module evaluation of HISinOne data
RES	HISinOne Module RES	Current Generation of HIS Software for Research Management
UPS	Uninterruptible Power Supply	Uninterruptible Power Supply in the Server and Infrastructure Area
SDA	Software Defined Access	Software-based network control via the DNA, Cisco Properitär (generally also known as SDN)
