# CampusCard

**ATTENTION!!!**

**In the winter semester 2024/2025 there will be a change to the semesterticket:**

From the winter semester, the Deutschlandticket will be introduced as a semesterticket for students. As a result, the previous semester ticket imprint on the CampusCard will be discontinued. Instead, the new Deutschlandticket will be made available digitally via an app. This app will be available in time for the start of the semester. Further information will be provided shortly.

The CampusCard is the result of a project with two other universities (Hannover / Hildesheim), which aimed at the dissolution of the former student ID while being chip-based and including the semester ticket. At the same time, the CampusCard was to enable the use of services at our university across all study locations, which was made possible by the merger. Based on a study in the area of studies of Industrial Engineering and Management and a subsequent diploma thesis on the introduction of a multifunctional smart card, the complete introduction took three years and was completed at the end of 2009.

The personalised, multifunctional CampusCard of the Jade University was foremost introduced in the winter semester of 2008 / 2009, beginning in Wilhelmshaven. After that, all students of the former university of applied sciences Oldenburg / Ostfriesland / Wilhelmshaven got theirs. In conclusion, this means that no student from then on has ever again received a semester ticket or student ID in a paper mould.

Application for a replacement card

Terms and Conditions for the use of the electronic wallet

## Functions

**Main Functions**

- Student ID

- Semester ticket
- Library card

**Authorization functions**

- Access to the buildings
- Use of the parking lot
- Time Recording

**Payment functions**

- Wallet
