Microsoft Windows

Note: Please note that setup and printing will only work within the Jade University network.

Installation

- In **Windows Explorer** (not Internet Explorer!), enter the appropriate print server in the address line: `\\ccm-qpilot-1.hs-woe.de\`.
- If your device is not integrated in the PC-Verbundsystem (e.g. notebooks), the login window “Windows Security” appears and you have to log in:
  - User name: Domain login (form: ma1150@hs-woe.de)
  - Password: your password in the PC network system
  - Save login data: activated
- Right-click on the multifunction device “QPilot” and select “Connect”.

Print

- Within your application, click on “Print”, select the multifunction device “QPilot” and start printing.
- Go to a multifunction device, insert your CampusCard into the reader and select the document you want to print.
- Alternatively, open the InterCard User Service website.
  - Under mobilePrint you can store or upload a document to be printed.
  - Under print jobs you can see the print jobs you have already set up.
