Multifunction Devices

All over the campus, you will find multifunction devices that you can use to print, copy and scan documents. The devices are available to all members of the university and use is subject to a fee.

Features

Members of the Jade University can use the following functions on the multifunction devices (MFG):

- A4 and A3 printing
- Print in black and white and in color
- Copying printed matter
- Scan to a locally connected USB memory stick

Locations and status

The locations and the status of the multifunction devices can be found under service status.

In case of problems, the following contacts can be contacted on site:

- Elsfleth: Mr. Christoph Heimann
- Oldenburg: Mr. Wilfried Ramke
- Wilhelmshaven: Mrs. Flammkamp (Pförtnerloge)

Setup

In order to be able to use the print function of the multi-function devices, the location-specific printer queue must be integrated:

- Setup: Microsoft Windows
- Setup: Apple macOS
- Setup: Ubuntu Linux

The print jobs can then be retrieved and printed at one of the multifunction devices within 72 hours.

Use of the multifunction devices from the CampusCard wallet

All members and relatives of the Jade University have the option of topping up their CampusCard wallet and thus paying for their print and copy orders on the multifunction devices. The wallet is loaded onto the CampusCard by depositing cash in the top-up machine or by paying cash in the canteens.

Use of the multifunction devices via a cost center on the CampusCard

Staff at the Jade University can have a cost centre entered on the CampusCard. This cost centre will then be charged for the payment of your print and copy orders. To register the cost centre on your CampusCard, please contact the university computing centre.
