Procurement

The University Computing Center supports the departments, administration and central facilities in the procurement of IT-technical devices and software. Framework agreements exist with the following companies:

- Dell (PC, monitor, notebook, server)
- Cancom (Apple products)
- H&G (Toner for HP printers)

For procurements in this area, offers can be generated promptly. No supplementary offers are required. Usually, the necessary procurement documents are generated at the same time.

Otherwise, the university's procurement guidelines always apply.
